

**Draft 2.0 Release by ONM to Trade**

## **Odor No More, Inc. Signs National Purchasing Agreement with Waste Industries USA**

**CupriDyne Clean wins customers with unmatched performance, sustainable footprint and unconditional satisfaction guarantee**

WESTMINSTER, CA – (May xx, 2017) Odor-No-More, Inc., a subsidiary of BioLargo, Inc. (OTCQB : BLGO), announced it has signed a National Purchasing Agreement with Waste Industries headquartered in Raleigh, North Carolina. The agreement entitles all Waste Industries facilities to purchase CupriDyne® Clean at negotiated rates and enables Odor No More, Inc. to offer CupriDyne Clean to all their facilities.

Waste Industries Purchasing Manager, Josh Thompson, commented “A number of our sites tested Odor-No-More’s products, and the results were remarkable. Not only did they like the product, they were impressed with the quality of service from the company.”

Joe Provenzano, President of Odor No More, commented, “Our [CupriDyne® Clean](#) products offer safe, effective and sustainable solutions for the waste and recycling industry. Both our liquids and powders consistently prove unparalleled in performance in trials around the nation. Rather than just masking odors, CupriDyne Clean breaks down volatile organic compounds instantly and safely, eliminating odors in such an effective way that industry leaders did not believe was even possible.”

VP of Industrial Sales, AJ Sexton, added, “We have solved odor issues from all types of waste including wastewater sludge, grease, food waste, green waste and other municipal solid waste in all types of facilities, including landfills, transfer stations, wastewater plants, trash rooms and composting facilities. CupriDyne Clean is setting the new high standard for industrial odor control products.”

CupriDyne Clean is available in ready-to-use and concentrated liquids (both fragrance-free and several fragranced versions) for misting and spray applications or as an effective, odor eliminating, liquid base, for spray on cover systems. The product is also available in powders for addition to water trucks and hydrogels for transport cover.

About Waste industries Waste Industries has been servicing the waste and recycling needs of its customers since 1970. Today, they service residential, commercial, municipal, and industrial customers throughout North Carolina, South Carolina, Virginia, Georgia, Delaware, Maryland,

and Tennessee. Waste Industries' commitment to sustainable technologies and superior service has pushed the company into an industry frontrunner with over 1.6 million service points across the United States and ranking in the top 10 waste haulers by revenue in *Waste Age* since 2015.
